

“ This year marked an important milestone for Safaricom as we celebrated 25 years of service and impact. We continue to strengthen the foundations of the business for the long term, supported by the successful renewal of our licence, which underpins stability, disciplined investment and capital allocation. These fundamentals support our commitment to delivering consistent shareholder returns and a resilient, progressive dividend. Accordingly, the Board has proposed a final dividend of KShs 1.15 per ordinary share, bringing the total dividend for FY26 to KShs 2.00. ”

Adil Arshed Khawaja (MGH)
Chairman of the Board

“ As we marked 25 years of Safaricom’s service and impact, we reflected on the journey shared with our customers, partners and communities—connecting people and businesses, enabling opportunity, and making everyday moments easier. The celebrations over the past year reaffirmed our purpose and the role we continue to play in transforming lives. Building on this legacy, we will continue to innovate for inclusion, scaling solutions such as Ziidi Trader, while deepening our community impact through Citizens of the Future, our flagship education programme supporting the next generation across Kenya. ”

MESSAGE FROM THE DIRECTORS

The Board of Directors is pleased to release the audited results for the year ended 31 March 2026. The same accounting policies and methods of computation have been used in the last financial statements.

Community Engagement and Social Impact

In FY26, Safaricom continued to advance inclusive growth through targeted community investments spanning economic empowerment, health and education, anchored by the Safaricom and M-PESA Foundations. Micro and small entrepreneurs were supported through initiatives such as Pochi La Biashara, expanding access to digital payments, savings and business capabilities, while flagship programmes including Chapa Dimba na Safaricom, Ndoto Zetu and Citizens of the Future continued to unlock opportunity and nurture talent across communities. Guided by the Safaricom Foundation's 2023–2026 “Partnering to Enhance Equity” strategy, these initiatives reflect our commitment to leveraging technology and partnerships to deliver sustainable social impact and transform lives.

Group Performance

We are pleased to report a strong performance for FY26, reflecting the Group's resilience and disciplined execution in a dynamic operating environment. Group service revenue grew by 11.5% YoY to KShs 414.1 billion, driven by double-digit growth in Kenya and accelerated growth in Ethiopia. The Group's customer base expanded significantly, with three-month active customers increasing by 25.4% to 71.56Mn and one-month active customers rising by 14.2% to 50.66Mn, reflecting sustained customer acquisition and engagement. In Kenya, a relatively stable macroeconomic environment—characterised by contained inflation, stable currency conditions and supportive GDP growth—underpinned customer usage and affordability, enabling Safaricom to sustain its market leadership with a 66.8% GSM customer market share as at December 2025. In Ethiopia, the operating environment continued to stabilise, supported by improving customer momentum and network expansion, although performance was impacted by Birr depreciation of 23.7% against the US Dollar and 39.6% against the Euro during FY26. Looking ahead, elevated geopolitical tensions, including the conflict involving Iran, present emerging risks through potential volatility in global energy markets and foreign exchange conditions.

Kenya Business Review

M-PESA contributed 45.6% of Kenya's service revenue, growing 13.4% YoY to KShs 182.7Bn, supported by higher customer activity and expanded merchant acceptance across Pochi and Lipa na M-PESA. The merchant base expanded 71.0% to 3.1Mn, driven mainly by Pochi, which grew 81.5% to 2.1Mn, while Lipa na M-PESA merchants increased 54.2% to 1.0Mn. Assets under wealth management rose to KShs 21.0Bn on increased adoption of digital savings and investment propositions. Ziidi Trader was launched during the year, enabling customers to trade listed securities directly from their mobile phones and expanding M-PESA's Wealth Management proposition beyond savings into active investing. Connectivity remained the largest service revenue contributor at 49.4%, with revenue rising 6.9% YoY to KShs 197.9Bn. Mobile data revenue grew 14.4% YoY to KShs 83.35Bn and became the largest contributor to connectivity revenue at 42.1%, overtaking voice at 41.3%. One month active mobile data customers increased 11.2% YoY to 34.13Mn, while average consumption per chargeable subscriber rose to 4.92GB, supported by higher smartphone penetration and continued migration to 4G and 5G. Fixed Services and IoT revenue grew 12.2% YoY to KShs 20.2Bn, driven by strong demand across FTTH and enterprise connectivity. FTTH customers increased 35.0% YoY to 407,08k, supported by expanded fibre coverage, while enterprise fixed customers grew 19.7% YoY to 83.61k, with continued scaling of 5G Fixed Wireless Access contributing meaningfully to overall connection growth.

Ethiopia Business Review

Our journey over the past 25 years has been defined by purpose, innovation, and impact. We are committed to shaping the future of connectivity, technology, and financial inclusion across Africa.
