COMMENTARY

Performance

In the first half of 2026, total revenues increased by 23% to Kes 69.9 million in the period compared to Kes 56.8 million realised in the same period of 2025.

The company produced 2,212 tons of green leaf, which in turn was manufactured into 492 tons of black tea. This was a 14% increase in made tea volumes compared to the first half of 2025.

The company posted a pre-tax loss of Kes 21.1 million in the first half of 2026 compared to a pre-tax loss of Kes 22.2 million in 2025. The slight improvement was mainly attributable to relatively stable tea market prices during the period.

Dividend

The Directors do not recommend an interim dividend.

Prospects

Operation cost driven by rising labour costs has pushed the cost of production upward. Tea prices remained generally stable during most of the first half of 2026 before softening towards the end of the period as market conditions weakened.

Management will continue to implement cost containment measures and quality improvement initiatives aimed at enhancing operational efficiency, strengthening product quality, and supporting the Company's resilience. These initiatives are expected to position the Company to deliver sustainable performance despite the prevailing market and cost pressures.

Ms. Dorcas Muli

CHAIRPERSON

21st August 2026
