

# CAR & GENERAL (KENYA) PLC

# SUMMARY CONSOLIDATED UNAUDITED FINANCIAL RESULTS FOR THE HALF YEAR ENDED 30 JUNE 2026

## COMMENTARY TO THE RESULTS

Turnover for the six months to 30 June 2026 was Ksh 15.6 billion, a 30% increase over the same period last year. Sales grew by 40% in Kenya, 35% in Uganda and 22% in Tanzania. In Tanzania, poultry sales also rose by 3.5%.

Profit after tax was Ksh 2.6 billion, compared with Ksh 637 million in the previous period. It has been a positive period for operations throughout the region. Profits from our associate, Watu, increased significantly, driven by the growth of mobile-phone financing and good performance in Kenya, Uganda, Tanzania, DRC, Nigeria, South Africa and Sierra Leone.

We are seeing growth across all product lines throughout the region. Most notably, Kenya motorcycle sales grew to an average of 12,000 units per month in 2026, up from 7,000 units per month in 2025. This represents a significant opportunity going forward. Exchange-rate stability has also been beneficial, affording us greater control over our margins.

Tanzania trading has also seen modest growth in two-wheeler and three-wheeler sales and the outlook remains positive.

The poultry operation in Tanzania has stabilised and is progressing positively. Production of day-old chicks and demand have remained stable, which accounts for the limited sales growth. We expect production to grow further in the second half of the year.

On investment property, Nairobi Mega on Uhuru Highway has maintained stable footfall, which we expect to continue for the remainder of the year. We hold 22.5 acres in Shanzu, having sold 1.5 acres in 2026, and we continue to pursue a partial reduction of this holding by the end of the financial year. The completion of the Mombasa –Malindi highway, due in 2027, further enhances the value of the property.

Our investment in Watu also continues to make progress in Kenya, Uganda, Tanzania, DRC, Nigeria and Sierra Leone. We have opened in Rwanda and South Africa and will continue in our quest to digitise Africa.

Our helmet-manufacturing subsidiary, Boda Plus, continues to make progress and is now profitable. We are exporting to Uganda, Tanzania, DRC, Rwanda and Burundi, and the partial recovery of the Kenyan market has further supported this improved performance.

Our investments in two-wheeler and three-wheeler electric vehicles, in liquefied petroleum gas (LPG) three-wheelers (in Kenya) and in compressed-natural-gas (CNG) three-wheelers (in Tanzania) have met with a positive response. With our financing capabilities, we are confident that we can drive the transition to cleaner energy in the two-wheeler and three-wheeler markets across the continent. Infrastructure for both electric charging and gas supply is being developed and needs to be accelerated to promote exponential growth.

We continue to make a significant impact on people's lives, with over 5 million customers using our products and services for their well-being.

## Future Outlook

Despite unpredictable global geopolitics, we expect economic conditions in East Africa to remain stable in terms of inflation, foreign exchange and liquidity for the rest of the year. We will drive growth across all product lines and businesses to increase market share.

In the near term, we will leverage the diversity of our businesses to increase Group profitability. Given our leading market shares across all sectors, we remain confident that we are well placed. Our focus will be on making customers smile in every street and every town, across all sectors, and on balance-sheet optimisation throughout the Group.

## Dividends

The Directors have approved an interim dividend of Ksh 1.00 per share, payable on or about 10 September 2026, to Shareholders on the register of members as at 3 September 2026.

Nicholas Ng'ang'a  
Chairman  
12 August 2026
