Cash and cash equivalents at the beginning of the year	31,578	14,545
Effect of exchange rate changes on cash and cash equivalents	(334)	530
Cash and cash equivalents at the end of the year	43,925	31,578

RESULTS SUMMARY

The above are extracts of the Financial Statements of Eaagads Limited that were approved by the Board of Directors on 28 July 2026. These accounts were audited by Deloitte & Touche LLP, Certified Public Accountants (Kenya) and received an unqualified audit opinion.

PERFORMANCE

Sales revenue for the year ended 31 March 2026 declined to KShs 257 million, down from KShs 277 million in the prior year, weighed down by a 33 % (87tons) drop in sales volume to 264 tons. There was a 5% (14tons) reduction in production to 281 tons—linked to high temperatures. However, the average sales price rose by 32% to USD 7.6/kg of clean coffee. This mitigated the revenue decline and contributed to a 125% surge in pre-tax profit to KShs 39 million, up from KShs 17 million in the previous year. The company capitalized on strong pricing to deliver a notable improvement in profitability.

OUTLOOK

The outlook remains positive, with strong flowering signaling a potential rebound toward 320 tons (comprising 170 tons from the early crop and 150 tons from the late crop) for the 2026/27 season. While rainfall projections are above average, proactive climate-smart agricultural practices are enhancing yield consistency. At the same time, strategic pricing and effective cost control continue to deliver solid margins, positioning the company for sustained growth despite ongoing climate uncertainties. To further strengthen resilience, the company has a dedicated plan to expand the area under coffee farming and implement water harvesting solutions.

DIVIDEND

The board of directors do not recommend payment of a dividend for the year ended 31 March 2026 (31 March 2025: Nil)

By the Order of the Board

Company Secretary

28 July 2026
