Overview:

Revenue increased by 19% this year compared to the prior year, driven by strong growth in customer engineering projects and increased demand for medical and industrial gases. At the same time, distribution, selling, and administrative expenses declined following deliberate cost-control measures implemented by management.

These combined factors significantly strengthened profitability, with profit after tax increasing by 48% year-on-year, underscoring the success of our growth strategy and the effectiveness of our operational discipline.

Outlook for 2026:

The Company remains committed to delivering high-quality products and services while upholding the highest standards of safety and quality. Our focus is on creating lasting value for customers and shareholders, with sustainable growth as a central objective.

To achieve this, the company continues to strengthen its leadership in medical gases, reinforcing its position as a trusted partner in the healthcare sector. In parallel, the company is expanding its industrial gases footprint by engaging the manufacturing, services, agricultural, and fabrication industries, while reinforcing partnerships with key stakeholders across the sectors. This strategic approach underpins long-term resilience, broadens market presence, and supports sustainable growth.

Dividend:

The Board of Directors is pleased to recommend approval at the next Annual General Meeting of the Company a final gross dividend of KShs 10.35 per share, payable net of Withholding Tax, on or about the 21 July 2026 to Shareholders on the Register at the close of business on 31 May 2026 (2024: 6.15 per share).

Annual General Meeting:

The Board of Directors also announces that the Annual General Meeting of the Company will be held virtually on Thursday 25 June 2026 at 11.00 A.M.
